

Come try something new!

Open to students age 10 - 18

All are welcome!

You are invited to join our Student Directed Project Class

Imagine the learning potential of studying a topic of great personal interest with guidance and support to follow your questions and realize your vision!

This is a powerful and compelling way to learn and practice the research and communication skills that are essential to lifelong learning, higher education, and many work environments. Students choose a project of personal interest each semester or for the whole school year and set their own project goals. These projects span all curricular areas. The teacher helps to guide students in a rich, interdisciplinary, in-depth exploration of their chosen topics

Each student creates a final display or portfolio of work, which is shown at a culminating Presentation Celebration. Past creations have been as diverse as the following: a Pacem theater group, a fiction story set in Japan, a slideshow about prejudice, hand-sewn costumes, animated and live-action short films, a robot, a model of a sustainable homestead, and a computer built from parts. These displays reflect the individual talents, creativity, self-expression, and learning styles of the students as they share their learning with the community.

The class meets once a week on Thursday morning. (8:30 – Noon)

Cost for the fall semester (now until December 21) \$860
